SUMMARY

Engineer-turned-Product Designer with 3+ years of experience leading end-to-end product design for enterprise SaaS, AI, and mobile products. As Founding Designer at Hotelogix, I've built scalable design systems, simplified complex workflows, and partnered with startups to launch zero-to-one products across AI, HealthTech, and B2B SaaS.

EXPERIENCE

Product UX Designer Associate - Hotelogix

2025 - Present

arunima.online

Recognized for strong product ownership and promoted from Junior Product Designer to Product Designer, expanding responsibility across five enterprise product lines.

Reservation Management System

- https://www.arunima.online/case-studies/hotelogix-frontdesk
- Shadowed hotel staff to map what each role needed, then redesigned user flows per access level, cutting booking time by 15% and consolidating 5 separate workflows into 2.
 - Added a real-time floor plan lookup that made hotel operations readable at a glance and easier for departments to coordinate, reducing operation time by 20%.

Central Reservation Office (CRO)

- https://www.arunima.online/case-studies/hotelogix-cro
- Simplified a reservation platform used by 200+ hotels, cleaner role-based access and a more visual, easier-to-scan workflow.
 - Rebuilt mass booking and added an itinerary feature for multi-stop stays, cutting booking time by 45% and itinerary setup effort by 50%.

Point of Sale

- https://www.arunima.online/case-studies/hotelogix-pos
- Redesigned the POS to simplify ordering, including cleaner handling of multiple KOTs, improving kitchen-to-table speed by 10%.
 - Added a real-time restaurant layout to track order progress at a glance and rebuilt table management with a faster order-entry flow, increasing table turnover by 12% during peak hours.

Junior Product UX Designer - Hotelogix

2023 - 2025

Pocket PMS (iOS & Android)

- https://www.arunima.online/case-studies/pocket-pms
- Revamped an outdated, non-responsive mobile app into a minimal interface with a rethought site map, decreasing the response time by 60%.
 - Collaborated with multiple teams across research, development, and QA conducting a/b testing to introduce two-step booking feature.

AxisRooms

- https://www.arunima.online/case-studies/axiesroom
- Refreshed the UI across the enterprise platform, mobile app, and marketing site, bringing a consistent visual language to a product that had drifted out of sync.
 - Streamlined workflows and navigation across web and mobile, cutting flow steps by 30% and making key features reachable from multiple entry points.

Independent Consultant

Partnered with early-stage startups across AI, Enterprise SaaS, HealthTech, and Deep Tech, leading end-to-end product design from discovery to launch.

ContactME (AI Service Discovery)

- https://www.arunima.online/case-studies/contact-me
- Developed AI-powered conversational application for a Just-Dial style service discovery chatbot across 100+ service categories.
 - Enhanced a streamlined discovery flow that made merchants 4x easier to reach than searching online.

Positivity (HealthTech)

- Turned handed-off user flows into polished UI for therapy booking, assessments, and therapist dashboards, working closely with developers to get the designs shipped.
- Contributed to building a 25-component design system powering both the app and 60+ page website (currently in development).

SKILLS

Product Design

- End-to-End Product Design
- UX Design
- Wireframes
- Information Architecture
- Interaction Design
- Prototyping
- AI-Assisted Design

Research

- User Research
- Contextual Inquiry
- Usability Testing
- Competitive Analysis
- Journey Mapping
- Heuristic Evaluation

Design Practice

- Design Systems
- Accessibility (WCAG)
- Enterprise SaaS
- B2B SaaS
- Agile
- Stakeholder Management

Tools

- Figma
- Claude Code
- Cursor
- Hotjar
- Jira
- Confluence
- GitHub

EDUCATION

Bachelor of Technology -B
Tech, Computer Science

University Institute of
Technology, RGPV

09/2019 - 05/2023

Bhopal

CGPA

8.1 / 10

KEY ACHIEVEMENTS

- Featured in SHARK TANK INDIA

Designed the brand identity, investor pitch deck, and marketing website for Kalam Labs, a deep-tech aerospace startup featured on Shark Tank India.
- Government & Defence Pitch Decks

Designed decks presented to the President of India, the PMO, and the Indian Army.
